

## “All Positive” Rules Are Clear

- “Where an anabolic androgenic steroid is capable of being produced endogenously, a Sample will be deemed to contain such Prohibited Substance where the concentration of such Prohibited Substance or its *metabolites* or markers... in the Athlete’s Sample so deviates from the range of values normally found in humans that it is unlikely to be consistent with normal endogenous production.”

--*The 2006 World-Anti Doping Code*

The current-year rule is clear.
